

REQUEST FOR ACTION (RFA) FORM

GLAST LAT Project
ISOC Peer Review
March 2, 2004

Action Item # 06

Presentation Section/Subject Area: Staffing Profile/Needs

SPECIFIC REQUEST:

Need to provide more information on the planned and actual staffing profiles. Identify which areas that are needed now are not filled, what is being done to fill them, and their role in being able to prepare for the ISOC CDR. The ground software engineer for example would seem to be a prerequisite for preparing for the CDR, let alone actually conducting it. Would also seem to need a Test Engineer.

REASON/COMMENT:
